At Treforest Vets we want to make preventative health care easy and affordable, to help you give your pets the best care possible.

We believe that prevention is better than cure, rather than waiting until an animal is ill and suffering to put things right. Early diagnosis of health problems will help your pet to live a long and healthy life.

Our Healthy Pet Scheme is not pet insurance. It covers the regular treatments your pet needs throughout life, such as vaccinations, flea and worm treatments and regular health checks.

Extra benefits include discounts on certain foods and other routine treatments your pet might need.

Read on for more information, or speak to one of our team today to find out how you can save money and worry, while providing for your pets ongoing health.
